MPO SELF-CERTIFICATION

The Kansas Department of Transportation (KDOT) and the Lawrence - Douglas County Metropolitan Planning Organization (MPO) certify that the metropolitan transportation planning process is being carried out in accordance with all applicable requirements including the following:

1. 23 U.S.C. 134, 49 U.S.C. 5303, and this subpart; All core documents are current;
2. In nonattainment and maintenance areas, Sections 174 and 176 (c) and (d) of the Clean Air Act, as amended (42 USC 7504, 7506 (c) and (d)) and 40 CFR Part 93;
3. Title VI of the Civil Rights Act of 1964, as amended (42 USC 2000d-1) and 49 CFR Part 21;
4. 49 USC 5332, prohibiting discrimination on the basis of race, color, religion, national origin, sex, disability, or age in employment or business opportunity;
5. Section 1101(e) of the Infrastructure Investment and Jobs Act (IIJA) (Pub. L. 117-58) and 49 CFR Part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
6. 23 CFR Part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts,
7. The provisions of the Americans with Disabilities Act of 1990 (42 USC 12101 et seq.) and 49 CFR Parts 27, 37, and 38;
8. The Older Americans Act, as amended (42 USC 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
9. Section 324 of Title 23 USC regarding the prohibition of discrimination based on gender; and
10. Section 504 of the Rehabilitation Act of 1973 (29 USC 794) and 49 CFR Part 27 regarding discrimination against individuals with disabilities.

Bart Littlejohn, Chair

Title VI Note: The L-DC MPO hereby gives public notice that it is the policy of the agency to assure full compliance with Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, and related statutes and regulations in all programs and activities. Title VI requires that no person in the United States of America shall, on the grounds of race, color, or national origin, be excluded from the participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the L-DC MPO receives federal financial assistance. Any person who believes they have been aggrieved by an unlawful discriminatory practice under Title VI has a right to file a formal complaint with the L-DC MPO. Any such complaint must be in writing and filed with the L-DC MPO's Title VI Coordinator within one hundred and eighty (180) days following the date of the alleged discriminatory occurrence. For more information, or to obtain a Title VI Discriminatory Complaint Form, please see our website at <https://lawrenceks.gov/mpo/title6>.

INTRODUCTION

...WHAT IS AN MPO?

A Metropolitan Planning Organization (MPO) is a regional decision making body charged with developing a transportation plan and related policy and programming documents. The MPO is a group that is composed of representatives from many local governments that collectively discusses the transportation issues facing the metropolitan area and then makes decisions about how to address those issues. The Lawrence-Douglas County MPO is comprised of a Policy Board mainly composed of elected officials, a Technical Advisory Committee (TAC) made up of transportation and engineering professionals, the MPO Staff, and various other Steering Committees and Staff Workgroups that the MPO forms.

Figure 1 displays the MPO structure. The MPO develops four core documents that create a regional vision for how the multimodal transportation system will function and grow – now and into the future. The MPO's core documents are the Metropolitan Transportation Plan (MTP), Transportation Improvement Program (TIP), the Unified Planning Work Program (UPWP), and the Public Participation Plan (PPP).

Figure 1: MPO Structure

The Lawrence-Douglas County Metropolitan Planning Organization (MPO) serves all of Douglas County, Kansas including Baldwin City, Eudora, Lawrence, and Lecompton (see Figure 2).

What is the TIP?

The Transportation Improvement Program (TIP) documents how the limited transportation resources are prioritized among the various needs of the region.

The TIP is a short-range, multi-year listing of federally funded and/or regionally significant improvements to the region's multimodal transportation system. Projects in the TIP are designed to implement the Metropolitan Transportation Plan (MTP). The TIP must be fiscally constrained and include only projects for which funding has been identified using existing or reasonably available revenue sources. The TIP must be updated at least once every four years. The Lawrence-Douglas County TIP is updated every two years.

The TIP and Transportation 2050

The TIP and Transportation 2050 (T2050) are linked.¹ T2050 is the long range transportation vision; while the TIP is the short range implementation list. For projects to be included in the TIP, they must be consistent with T2050. This ensures projects are implementing the MPO's vision for a healthy, safe, and efficient transportation system, which adequately serves Lawrence, Eudora, Baldwin City, Lecompton, and unincorporated areas of Douglas County.

Community input led to the development of the T2050 vision, goals, priorities, and objectives (Table 1). These goals are implemented by the TIP. The Tracking Performance Measures section provides further details on how the two documents are linked.

Table 1: Transportation 2050 Goals and Objectives

Goals	Objectives
Transportation Options People have a variety of transportation options that provide safe, accessible, convenient, healthy, and affordable travel that connect them to their destinations. 	Complete a connected network of pedestrian and bicycle facilities comfortable to all ages and abilities. Provide a transportation system that supports multimodal options that are affordable, sustainable, reliable, efficient, safe, and easy to use. Improve access to comfortable transit stops, routes, and on-demand services. Utilize land use policies and regulations to support multimodal travel options.
Shared Prosperity The transportation system supports prosperity for all by connecting people and places in an equitable, reliable, affordable, and efficient manner. 	Support efficient freight, commuting, travel and tourism through transportation investments that increase regional access and incorporate placemaking. Support fiscally responsible development patterns and infrastructure investments that are in accordance with the Major Thoroughfares map. Elevate equity in transportation planning and investments by prioritizing the fair and just distribution of benefits and burdens related to transportation and by ensuring traditionally underrepresented communities participate in decision making.
Safety & Security People's lives are saved, crashes are avoided, and people and goods are safe and secure. 	Improve safety of all modes and decrease fatalities and serious injuries. Mitigate the transportation system's vulnerability to crime, terrorism, natural disasters and climate change. The transportation system supports emergency preparedness, response, and recovery.
Sustainability Protect and enhance the natural environment and support energy conservation. 	Increase the percentage of trips made using active, shared, and low carbon transportation modes to reduce vehicle miles traveled. Minimize negative environmental impacts by reducing transportation-related greenhouse gas emissions and by designing projects to avoid, minimize, or mitigate impacts to water and air quality and habitat. Maintain a transportation planning process integrated and coordinated with land use, water, and natural resource planning and management.
Operations & Maintenance Existing infrastructure is prioritized through maintenance, operations, and strategic improvements to provide for the best return on public investments. 	Preserve and maintain transportation system assets to maximize their useful life and minimize project construction and maintenance costs. Strive for equitable outcomes when maintaining existing infrastructure and designing new facilities by considering mobility needs for all ages and abilities. Incorporate technology to enhance the capacity, operations, user experience, and performance evaluation of the multimodal transportation system.

FFY2025 TIP

TIP Public Involvement Process

The MPO's Public Participation Plan (PPP) requires a new TIP to undergo a 30-day comment period and amendments require a 15-day public comment period.¹ The full draft TIP is available on the MPO website (www.lawrenceks.gov/mpo/tip) and a printed copy is available at Lawrence City Hall, Lawrence Public Library, Eudora Public Library, Baldwin City Public Library, and Lecompton City Hall. The public is notified of the opportunities to review the draft TIP through a local newspaper advertisement, notification by email, and by staff announcements that the draft TIP is available for comment at MPO meetings. These strategies are consistent with the PPP, which addresses how everyone will be engaged in the planning process.

Public comments are posted online at www.lawrenceks.gov/mpo/tip/comments and are shared with TAC and the MPO Policy Board. MPO staff reviews the comments and responds to the comment submitter and posts the MPO response in conjunction with the comment online. If comments have direct, applicable action these changes are discussed with the project sponsor (if relevant) and are incorporated into the final draft document sent to the MPO Policy Board for approval. Appendix E contains the public involvement process utilized to develop this TIP. Figure 3 displays the process.

Figure 3: TIP Public Involvement Process

¹ Details about the public participation process for the approval and amendment of the TIP can be found at www.lawrenceks.gov/mpo/public_participation.

PROGRAMMING PROCESS

...HOW DO PROJECTS GET IN THE TIP?

Legislative Requirement

The current federal surface transportation legislation is called the Infrastructure Investment and Jobs Act (IIJA), also known as the Bipartisan Infrastructure Law (BIL). It is a five year (FFY 2025-2028) transportation program signed into law by President Biden on November 15, 2021.¹ MPOs are required to develop a TIP that is fiscally constrained and contain all capital and non-capital surface transportation projects within the MPO area that will receive federal funding, as well as other regionally significant transportation projects.²

Process for Including Projects in the TIP

The projects included in the TIP are drawn from the area's Metropolitan Transportation Plan (MTP), County and City governments' Capital Improvement Plans (CIP), as well as the State's Transportation Program known as IKE (formally called the Eisenhower Legacy Transportation Program). The MPO encourages Project Sponsors to use the factors in Appendix A to determine which projects should be prioritized for funding and inclusion in the TIP.

Project Sponsors submit projects to the MPO staff for inclusion in the TIP and MPO staff work with TAC members to ensure that the projects are regionally significant and are consistent with the MTP.

Figure 4 displays the process for including projects in the TIP.

The transit and paratransit projects programmed in the TIP also go through a project selection process. Lawrence Transit staff works with the MPO, FTA, KDOT, and University of Kansas - KU On Wheels (KUOW) staffs to plan and program projects in the TIP that address transit needs and issues identified in the MTP. The KDOT- Office of Public Transportation in consultation with the Urban Corridor Coordinated Transit Council makes the selection of paratransit projects to include in the TIP.

This TIP document contains projects for Lawrence Transit that collectively constitutes the Program of Projects (POP) for Lawrence Transit. This list of transit items is a prioritized list of projects used by the Lawrence Transit staff and reviewed by FTA officials. Approval of the TIP includes the approval of the POP for Lawrence Transit. The public involvement procedures used for TIP development and amendments are used to satisfy the POP requirements for FTA Section 5307 funding.

Figure 4: TIP Project Listing Submission Process

¹ IIJA was created as Public Law 117-58. The official legislation can be accessed at <https://www.congress.gov/117/plaws/publ58/PLAW-117-publ58.pdf>

² In accordance with United States Code Titles 23 and 49, the TIP document must outline at least a four-year program of: 1) All federally funded priority transportation projects, and 2) All regionally significant priority projects, regardless of funding source.

Revisions to the TIP

There are times when information about projects needs to be adjusted. Minor changes to project information are called revisions and are administrative actions with no public involvement required. Major changes are called amendments and require public involvement. Figure 5 displays the TIP amendment process.

Formal Amendments

Amendments to the TIP often consist of major changes to total project cost. Those types of fiscal changes may have impacts on the ability of the TIP and/or the MTP to remain fiscally constrained. The following types of project changes are always handled as TIP amendments:

- Addition or deletion of a project within the first four (4) years of the TIP (federal regulations require this part of the TIP to show fiscal constraint)
- Total costs of a project and/or funding amounts for a project listed in the TIP increase by more than 20% of the total project cost (in the existing TIP);
- Change to a funding source (such as changing from state funding to federal)
- Change to a project scope and/or location (project limits)

Administrative Revisions

Administrative revisions include all revisions that are not formal amendments. These revisions usually involve, but are not limited to:

- Obvious minor data entry errors or editing corrections to text, map, and/or other graphics
- Splitting or combining projects (project scopes and costs cannot change)
- Changes or clarifying elements of a project description (with no major changes in scope)
- Change in funding program or category (such as changing from STP to HSIP funding)
- Change of program year of project within the four-year fiscally constrained TIP
- Minor change of less than 20% of total project cost

In processing administrative revisions MPO staff will:

- Enter the requested revision into the project database.
- Prepare and publish an updated TIP and post it online.
- Notify the Kansas Department of Transportation of the modifications revisions.
- Prepare a summary of the revision to be presented at the next scheduled MPO Technical Advisory Committee and Policy Board meetings (no formal action required).

Administrative Revisions require no public comment.

Figure 5: Amendment Process

Emergency Amendments

In the event of declared state and/or federal emergencies, or at the discretion of the MPO's Secretary, the MPO may elect to process any emergency-related TIP amendments through an expedited public participation process – a seven-day review instead of 15 days. Information will be posted on the MPO website. It should be shared with stakeholders through the E-Subscription service. The TAC and MPO Policy Board will have special meetings called with seven-day notice to approve the emergency-related TIP amendments.

Amendment Public Process

TIP amendments will be posted for public review and comment, the MPO staff will collect and review any public comments and share those comments with the TAC and MPO Policy Board to address and/or incorporate them, as necessary, before TIP approval.¹

A minimum 15-day public comment period is required for the proposed amendments, which are posted on the MPO web page. The MPO staff also places a paper copy of all TIP amendments in a binder kept at the front counter of the MPO Office for public review and comments. In addition, all TIP amendment announcements, including the printed advertisement in the newspaper, have the phone number, mailing address, and email address of the MPO staff listed on them so that anyone with questions or comments about the amendment can contact the staff to discuss it. Following the required 15-day public comment period, all comments will receive a response, either individually or in a summary form. The comments and responses will be posted at www.lawrenceks.gov/mpo/tip/comments prior to distributing the TAC agenda packet (one week before the TAC meeting). The MPO staff presents these public comments and the staff response to the TAC and the MPO Policy Board before they discuss approving the amendment. There is no requirement for a public hearing.

Amendment Schedule

In order to facilitate the process of making TIP amendments, the MPO has a TIP amendment item on the TAC and Policy Board meeting agenda once each quarter (Table 2). These dates to consider TIP amendments will be coordinated with the KDOT calendar for making changes to the Statewide Transportation Improvement Program (STIP). A similar schedule will be followed for the other years covered by this TIP.

Table 2: Quarterly Schedule for TIP Amendments

Amendment	Public Review Period			# of Public Comments	TAC Action	Policy Board Action	STIP Approval
Original Approval	8/27/2024	to	9/27/2024	0	October 1, 2024	October 17, 2024	November 7, 2024
Amendment 1	3/6/2025	to	3/21/2025	1	April 1, 2025	April 17, 2025	May 8, 2025
Amendment 2	7/22/2025	to	8/6/2025	0	August 5, 2025	August 21, 2025	September 4, 2025
Amendment 3	10/10/2025	to	10/25/2025	0	November 4, 2025	November 20, 2025	January 8, 2026
Amendment 4	1/8/2026	to	1/23/2026	0	February 3, 2026	February 19, 2026	March 5, 2026
Amendment 5	3/17/2026	to	4/1/2026		April 7, 2026	April 16, 2026	May 7, 2026
Amendment 6	5/7/2026	to	5/22/2026		June 2, 2026	June 18, 2026	July 9, 2026
Amendment 7	7/9/2026	to	7/24/2026		August 4, 2026	August 20, 2026	September 10, 2026

¹ An appropriate level of public involvement activities are outlined in the latest MPO approved Public Participation Plan found online at www.lawrenceks.gov/mpo/public_participation.

FISCAL CONSTRAINT

...HOW ARE THE PROJECTS PAID FOR?

Project Funding

Projects are funded from several sources. Street and highway projects can be financed entirely by state and/or local funds or by any combination of federal, state, and local funds. The Infrastructure Investment and Jobs Act (IIJA) provides federal-aid to state and local units of government for surface transportation projects.

The use of Federal Transit Administration (FTA) funds are allocated to transit operators by formulas through the FTA Region 7 Office in Kansas City and through the KDOT Public Transportation Programs Office of Public Transit in Topeka. State transit funds from the IKE Program flows through KDOT. These funds are utilized for the operations of Lawrence Transit and paratransit operations in the region.

KDOT administers Federal Highway Administration (FHWA) funding to local governments. The Surface Transportation Block Grant (STBG) Program and Highway Safety Improvement Program (HSIP) categories are the main federal categories or programs that cities receive through KDOT. The STBG Program combines the long-standing Surface Transportation Program and the Transportation Alternatives Program, now known as TA Set-Aside. Some of these funds provide annual allocations to cities while others require local governments to apply for project specific funding. The TA Set-Aside funds have helped build pathways, do historic preservation projects, and other projects outside the scope of traditional road and bridge improvements. They provide funding for former Transportation Alternatives (TA) program and the Safe Routes to Schools (SRTS) programs.

All of the estimated amounts of transportation project funds are included in Table 10: Estimated Revenues and Expenditures (located in the Demonstration of Fiscal Constraint section of this chapter). The estimates of reasonably expected funding levels based on financial information compiled for development of Transportation 2050 historic averages are compared to the levels of federal, state, and local funding for transportation facilities and services that are requested by KDOT and local governments for inclusion in the TIP. Comparing these expected funding levels and funding request levels allows the MPO to determine if the TIP is fiscally constrained.

Federal Funds

The federal funding for road and bridge projects in the region is generally limited to formula funding levels set by the USDOT and KDOT. Those levels have been relatively steady over the last few years with Douglas County receiving about \$440,000 and the City of Lawrence receiving about \$1.2 million annually in federal aid for roads and bridges. The three smaller cities in Douglas County (Lecompton, Eudora, and Baldwin City) have small public works departments, thus large road or bridge projects are often managed by Douglas County or KDOT.

Discretionary funding for TA Set-Aside program projects is also available on a more sporadic competitive basis. This funding is not guaranteed in any given year, but our region has received some funding and expects to receive more in the foreseeable future. These funding levels have more uncertainty and therefore, projects must have awarded funding to be included in the TIP. If and when local governments in Douglas County are awarded funding from these discretionary programs the MPO will amend the TIP to add that funding and those projects in a timely manner.

State Funds

State funds used in Douglas County for road and bridge projects are mostly limited to KDOT facilities and projects. The level of KDOT funding expended in the region varies greatly by year due largely to how much work KDOT does on the area’s major highways. Recently KDOT spent large amounts of funding to build the South Lawrence Trafficway (new K-10 alignment), and to build a new interchange along K-10 at Bob Billings Parkway/N 1500 Road. All of those projects are KDOT administered projects on KDOT routes, which typically do not significantly impact the local governments’ budgets for transportation improvements. Some other smaller amounts of State funding are used for local projects, such as the occasional purchase of a paratransit van with state money or a state contribution to a local bridge project.

For most local governments in the region the main KDOT funding role has been to provide federal aid to local projects, not to provide large amounts of state aid to local transportation improvements. However, the one example in the region where the state funding of a local project does make a routine and significant difference in the local budget process is state transit operating assistance. Lawrence Transit receives about \$1.3 million in state operating and capital assistance annually which is an important part of their budget.

KDOT does not program projects in their budget documents or ask for projects to be added to the TIP unless a specific identified and reasonable funding source is identified. Therefore, KDOT requests for TIP actions represent a fiscally constrained condition for state funded and/or managed projects.

Local Funds

City of Lawrence

Local funds are comprised of the general obligation debt, general fund, gas tax, and the ten year sales tax to improve roads/infrastructure and transit service, which was first approved in November 2008, and re-approved by Lawrence voters in November 2017. This continuation of sale taxes included 0.3% dedicated to roads/infrastructure and fire equipment and 0.2% dedicated to funding transit service. The fire equipment portion of the 0.3% tax cannot be separated for our analysis (Table 3).

These sales taxes will expire in April of 2029; new referendums will need to be approved to ensure this funding is available in the future. With the addition of those taxes the City has a local dedicated funding source for road and transit improvements that has made funding more predictable. The City is utilizing the sales tax revenue to fund street maintenance program that was not financially feasible prior to the tax.

The City also receives obligation authority for STP funds from KDOT. Lawrence has elected to exchange their available obligation authority of federal funds for state funds at an exchange rate of \$0.90 in state funds for every \$1.00 in federal obligation authority, per KDOT policy. On average over the last four years, the City has received \$1.1 million in KDOT’s federal funds exchange program.

Table 3: Lawrence Sales Tax for Improvement of Roads and Transit Service Projections (Shown in \$1,000s)

Source	Tax Percentage	Projected Collection			
				2027	2028
Roads/Infrastructure & Fire Equipment	0.30%	\$7,633	\$7,938	\$8,255	\$8,586
Transit	0.20%	\$5,263	\$5,484	\$5,681	\$5,845
Total		\$12,896	\$13,422	\$13,936	\$14,431

Source: City of Lawrence Finance Department. 2024-2028 are projected. The fire equipment portion of the .30% sales tax can't be removed from the roads/infrastructure.

City of Eudora, Baldwin City, and City of Lecompton

The City of Eudora became a second class city under Kansas statutes in 2010. With the designation, Eudora now receives an annual distribution of STP funding through KDOT. Similar to the City of Lawrence, the City of Eudora County receives obligation authority for STP funds from KDOT at an exchange rate of \$0.90 in state funds for every \$1.00 in federal obligation authority. This amount of federal funding is typically small (\$75,000 on average).

Baldwin City, Eudora and Lecompton use federal funding sporadically and work with Douglas County staff to administer major road and bridge projects using federal aid. This cooperation between the small cities and the County for the use of federal aid is expected to continue through the life of this TIP.

Douglas County

Just like Lawrence and Eudora, Douglas County receives obligation authority for STP funds from KDOT at an exchange rate of \$0.90 in state funds for every \$1.00 in federal obligation authority. On average over the last four years, the County received about \$442,000 in KDOT's federal funds exchange program, and about \$50,000 in federal sources such as U.S. Fish and Wildlife Service funding.

The County can also apply for TA Set-Aside funds if it chooses to do so. The County does not operate transit service and does not receive federal or state transit funding.

Douglas County has a CIP that is updated on a regular basis and other sources of local funds. The County programs its projects in their CIP and as needed the County staff coordinates its capital planning with the MPO staff for TIP development and changes.

Transit and Paratransit Funds

The public transit operations in Lawrence are composed of a mix of services operated by the Lawrence Transit and the University of Kansas service called KU on Wheels (KUOW). KUOW transit operations are primarily supported by student fees. The City transit service uses state operating assistance, state capital assistance, federal capital assistance, and federal operating assistance to keep buses running. Lawrence also uses local sales taxes to pay for transit.

Lawrence Transit is projecting to receive \$3.8 - \$4.0 million annually over the next five years in flexible federal formula Section 5307 subsidies to provide transit services. This annually allocated funding can be used for capital projects (e.g., buying new buses), but most of it has been used for operations. Due to the COVID-19 pandemic, the U.S. Congress authorized the American Rescue Plan Act, of which \$500,000 remains programmed in 2025.

Lawrence Transit was awarded Low or No-Emission (Low-No) Bus funding in 2020 (\$3.76 million), 2021 (\$1.82 million), and 2023 (\$3.3 million) to purchase electric buses. Lawrence Transit was awarded Access Innovation and Collaboration (AIC) funding in 2022 of \$677,000 for Bus Technology, Accessibility, and Branding Enhancements, \$1.6 million for construction of a Downtown Transfer Facility, and \$122,000 for construction of accessible bus stop amenities.

Capital assistance levels are typically much more unpredictable than operating assistance, but when the transit capital funding will be needed is fairly predictable because it is based on the life span of buses. That creates a dilemma for transit operators who in the past relied heavily on large discretionary grants from the FTA for bus fleet replacements. Now those large grants are gone and our transit operators are adjusting to buying only a few new buses at a time when funding is available instead of buying many buses on one large grant funded order. Lawrence Transit uses a relatively constant mix of federal and local funds for operations. Under the State Eisenhower Legacy Transportation (IKE)

Program some state operating assistance is received each year. The paratransit providers in the region provide all or most of their own funds to operate their services, and in some cases they use FTA or state grants for vehicle purchases. As part of these vehicle purchases the agency requesting the federal funds is required to provide a local match, and those vehicles are programmed in the TIP.

Operation and Maintenance (O&M) Funding

The fiscal constraint analysis looks primarily at capital projects (e.g., building roads and bridges, buying buses, etc.); however, that is not a complete picture of funding for the region’s multimodal transportation system. The funds needed for operating and maintaining transport facilities and services also has to be reviewed. An adequate level of Operations & Maintenance (O&M) funding needs to be budgeted to maintain the federal-aid highways and local roads in the region. Short-changing the O&M budgets to make the road improvement projects fiscally feasible is not appropriate. This funding is divided into Roads/Bridges and Transit.

Road and Bridge Operations and Maintenance Funding Estimates

The expenses for O&M work items are usually paid for by the local government that owns and operates the road and the utility providers that use the road rights-of-ways.

In the case of major highways, KDOT is the owner of the road and maintains those facilities. The major exception to this is the Kansas Turnpike/I-70 which is owned and operated by the Kansas Turnpike Authority. Some of the state highway mileage in Lawrence is provided on City streets through a city connecting link agreement between KDOT and the City. That agreement includes quarterly payments from KDOT to the City to pay a share of the maintenance costs for those route segments carrying a state highway. KDOT plays a role in the maintenance of some major roads in the region, but major highway mileage comprises a small percentage of total roadway mileage. Most of the road mileage in Douglas County is owned by the County, City or Township Governments that levy local property taxes and sometimes other taxes to pay for road maintenance and operations.

The cities and county also receive a portion of the state gas tax collected in Douglas County. This amount of funding is anticipated to continue during the years covered by this TIP. The state supplied pass through gas tax funding is supplemented by local government funds to make up the bulk of Lawrence and Douglas County roadway O&M budgets.

O&M consists of routine things such as pothole patching, minor repairs to pavements and curbs, snow removal, striping and marking, utility work and patching, electrical repairs, tree trimming, mowing, signal repairs, sign replacement, bridge maintenance, and other minor work tasks.

The City of Lawrence has a 2025 O&M budget for its road system of \$12.3 million paid with by state gas tax funds, local infrastructure sales tax, general fund, and federal sources. Douglas County had a 2025 O&M budget of \$6.8 million paid with a mixture of state gas tax, Capital Improvement Program allocation, Federal Funds Exchange with the State, and local and federal sources. The City of Eudora has a 2025 O&M budget of \$1.1 million which is funded by Federal Funds Exchange with the State, motor fuel Tax, general fund, and other fees and funds. Lecompton’s 2025 O&M budget is \$25,000. Baldwin City did not provide 2025 O&M figures but their 2021 budgets was \$460,000. It is expected that the local governments in the region will continue to fund their O&M budgets in order to adequately maintain their transportation infrastructure during this TIP period. Table 4 shows the KDOT, Douglas County, the City of Lawrence, Eudora, Baldwin City, and Lecompton O&M expected cost per lane mile.

Transit Operations and Maintenance Funding Estimates

Transit operations are funded with a mix of local, state, and federal funds. The transit system in Douglas County is a coordination of services owned and operated by the City of Lawrence, the University of Kansas, social service agencies that run paratransit vehicles, and Johnson County Transit that operates a commuter bus service called the K-10 Connector, which traverses between Lawrence and locations in Johnson County. K-10 Connector funding is programmed in the TIP produced by the Mid-America Regional Council (MARC), which is the MPO for the Kansas City area.

Transit O&M is the cost of operating transit service and maintaining the transit fleet. For example, this includes fuel, driver salaries, and purchasing transit vehicles.

Table 4: Road and Bridge O&M (Shown in \$1,000s)

	KDOT	County*	Lawrence	Eudora	Baldwin City***	Lecompton	Total
Anticipated funding per lane mile	\$ 1.72	\$ 14.66	\$ 16.29	\$ 14.19	\$ -	\$ 2.36	
Lane Miles**	204	464	891	73	61	13	1,707
2025	\$ 456	\$ 6,800	\$ 12,348	\$ 1,116	\$ -	\$ 34	\$ 20,755
2026	\$ 472	\$ 7,038	\$ 14,017	\$ 1,156	\$ -	\$ 33	\$ 22,716
2027	\$ 489	\$ 7,284	\$ 14,845	\$ 1,196	\$ -	\$ 34	\$ 23,849
2028	\$ 506	\$ 7,539	\$ 13,905	\$ 1,238	\$ -	\$ 35	\$ 23,223
Total	\$ 1,924	\$ 28,662	\$ 55,116	\$ 4,706	\$ -	\$ 136	\$ 90,542

*Does not include Township roads or road maintenance funds, but County maintenance costs does include bridges and large culverts on township roads that are maintained by the County.

**Lane Miles: Lawrence (2022) KDOT (2022) County (2020), Eudora (2020), Baldwin City (2020), and Lecompton (2020)

***No data provided

Lawrence Transit

Lawrence Transit service uses federal, state, and local funds for operating and routine maintenance expenses for their fixed-route and complementary paratransit services. Lawrence Transit needs to pay for its services when they are rendered (i.e., when the buses are rolling, burning fuel and labor costs are incurred) by maintaining a cash flow to pay for its vendors and staff as they work. Unlike a road or a bridge that can be bonded for twenty years and paid for over time, transit operations are typically not paid for with debt service.

For 2024, Lawrence Transit has an O&M budget of approximately \$11.1 million which is funded with a mixture of federal aid, state aid, and local funds. Due to the COVID-19 pandemic the U.S. Congress authorized the American Rescue Plan Act, of which \$500,000 remains programmed in 2025. Table 5 displays the Lawrence Transit O&M. The levels of O&M expenses and revenues shown in Table 5 are anticipated to continue through the four-year fiscally constrained period (2024- 2027). Operations and maintenance funding for Lawrence Transit is shown in Table 9: Estimated Revenues and Expenditures (located in the Demonstration of Fiscal Constraint section of this chapter). The O&M costs are deducted from the estimated revenues; therefore, funding for O&M projects are not available for other projects and the TIP is fiscally constrained.

Table 5: Lawrence Transit O&M (Shown in \$1,000s)

FFY	2025	2026	2027	2028	Total
Total O&M	\$ 11,165	\$ 12,058	\$ 13,023	\$ 14,065	\$ 50,311

*Based on information provided by Lawrence Transit

University of Kansas (KU on Wheels) Transit Funding

The University of Kansas also provides transit services that are available to the general population as well as KU students and staff. Funding for the KU on Wheels system includes a considerable amount of funding that supports fixed route transit in Lawrence. The KU transit funding information listed in Table 6 gives a more complete and realistic account of the size and costs of the transit system in Lawrence.

The KU on Wheels (KUOW) and the Lawrence Transit services are integrated into one route and schedule system and both of these operations accept each other's bus passes. Even though these two services are coordinated into one route map and schedule book, only Lawrence Transit receives FTA funding. The KUOW part of the public transit system in Lawrence is fiscally constrained by the revenues provided by fees that support it.

Table 6: KU on Wheels (KUOW) O&M (Shown in \$1,000s)

	2025	2026	2027	2028	Total
Total O&M	\$ 2,785	\$ 2,924	\$ 3,070	\$ 3,224	\$ 12,002

*Based on information provided by KU on Wheels for T2050 and projected for 2025 -2028.

Paratransit

The paratransit providers in the region mostly provide their own funds to operate their services, but in some cases receive a small amount of state operating subsidy from KDOT. Typically, this state operating assistance is only a few thousand dollars per year for each operator. Most of the federal and state aid to paratransit is for vehicle purchases.

The Douglas County Mobility Manager works closely with the KDOT transit staff and the Urban Corridor Coordinated Transit Council members to keep informed about the status of paratransit operations and funding issues. Those paratransit issues are discussed in more detail in the Coordinated Public Transit-Human Services Transportation Plan (CPT-HSTP).¹

Table 7: Regional Transit O&M (Shown in \$1,000s)

FFY	2025		2026		2027		2028		Total
Total O&M	\$	36	\$	39	\$	41	\$	42	\$ 157

*Based on information provided by transit providers for T2050 and projected for 2025 -2028.

Year of Expenditure (YOE) Inflation Factor

In addition to having a clearly identified source of funding for each roadway, bridge, transit, and enhancement project listed in the TIP, the project sponsor must also present their project costs in year of expenditure (YOE) dollars.

This allows the project estimates to take into account inflation and should make them more realistic than using constant dollars. This fiscal analysis uses an annual inflation factor of 1.5% (which matches the Inflation Factor planned for T2050) for all TIP projects to determine the estimated costs in the year of expenditure. This inflation factor has been used since 2012 when it was developed by KDOT for use with federal aid projects. TAC and MPO Policy Board members agreed to the YOE inflation rate.

1 Access this plan at <https://www.lawrenceks.gov/mpo/transit>.

Demonstration of Fiscal Constraint

TIPs are required to have a four year fiscally constrained program of projects. Fiscally constrained means enough financial resources are available to fund projects listed in the TIP.

The MPO accounts for O&M expenditures "Off the Top" from available funding before projects are programmed (Table 8). This ensures there is enough funding to operate, maintain, and preserve the existing transportation system (including roads, bridges, and transit services), which is a high priority of T2050.

Table 8: Funding Available for Projects after Accounting for all O&M Expenditures (in \$1,000s)

Subtracting O&M "Off the Top" (In thousands)					
	FFY 2025	FFY 2026	FFY 2027	FFY 2028	Total
Anticipated Funding	\$ 156,830	\$ 288,802	\$ 145,824	\$ 319,097	\$ 910,553
Anticipated O&M Expenditures	\$ 35,651	\$ 38,661	\$ 40,919	\$ 41,504	\$ 156,735
Funding Available for Projects	\$ 121,179	\$ 250,141	\$ 104,905	\$ 277,593	\$ 753,817

This TIP document provides realistic cost and funding estimates for improvement projects in the first two years of the fiscal constraint period (2025 and 2026). Predicting the revenues which will be available and costs for projects in the second half of that period (2027 and 2028) are a more speculative exercise.

Financial data was collected as part of development of Transportation 2050. The Funding Summary in Table 9 shows the level of projected funding from reasonable sources and the total level of project funding programmed in this TIP are balanced and this TIP is fiscally constrained. The fiscal breakdown by funding source for all roadway and transit projects listed in the 2025-2028 TIP are shown in the table. The projects are shown by year and funding source.

Table 9: Funding Summary (in \$1,000s)

Anticipated Funding (in thousands)						
Funding Source		FFY 2025	FFY 2026	FFY 2027	FFY 2028	Total
Transit	Federal	\$ 9,780	\$ 7,805	\$ 8,862	\$ 8,995	\$ 35,442
	State	\$ 2,366	\$ 2,367	\$ 2,308	\$ 2,823	\$ 9,865
	Local	\$ 11,891	\$ 11,234	\$ 11,079	\$ 11,192	\$ 45,396
Non-Transit	Federal	\$ 18,830	\$ 82,426	\$ 3,311	\$ 181,818	\$ 286,385
	State	\$ 41,383	\$ 117,391	\$ 41,212	\$ 38,133	\$ 238,120
	Local	\$ 36,928	\$ 28,917	\$ 38,133	\$ 34,632	\$ 138,610
Transit Total		\$ 24,037	\$ 21,406	\$ 22,250	\$ 23,010	\$ 90,703
Non-Transit Total		\$ 97,142	\$ 228,735	\$ 82,655	\$ 254,583	\$ 663,115
Grand Total		\$ 121,179	\$ 250,141	\$ 104,905	\$ 277,593	\$ 753,817

Anticipated funding is based on the revenue assumptions being prepared for Transportation 2050 and information provided by jurisdictions. Local transit funds include KU on Wheels funding. 1.5% growth is applied to the funding and the 2017 Lawrence sales tax referendum (funds roads/infrastructure and transit service) is assumed to be renewed thru 2050 for these projections. Advanced Construction Conversion

Estimated Expenditures by Year and Funding Source (in thousands)							
Funding Source			FFY 2025	FFY 2026	FFY 2027	FFY 2028	Total

		NII	\$ 1,446	\$ -	\$ -	\$ -	\$ 1,446
	State		\$ 7,598	\$ 60,479	\$ 350	\$ 1,713	\$ 70,140
	KTA		\$ 5,971	\$ 56,912	\$ -	\$ -	\$ 62,883
	State AC Conversion*		\$ (13,739)	\$ -	\$ -	\$ (181,248)	\$ (194,987)
	Local		\$ 18,849	\$ 15,624	\$ 4,144	\$ 810	\$ 39,427
	Transit Total			\$ 21,498	\$ 18,317	\$ 5,261	\$ 5,340
Non-Transit Total			\$ 36,187	\$ 139,657	\$ 5,963	\$ 2,523	\$ 184,330
Grand Total			\$ 57,685	\$ 157,974	\$ 11,224	\$ 7,863	\$ 234,746

*State AC Conversions are negative because the State is receiving federal reimbursement for funds spent in previous years (as noted in the project listing).

** While CDBG funding is not required to be in this TIP, it is part of #507 which includes various bike/sidewalk/ADA ramps projects in Lawrence.

4 | PERFORMANCE MEASURES

...HOW ARE WE DOING?

Transportation 2050 (T2050) is the region's Metropolitan Transportation Plan. Transportation 2050 lays out a vision to: Develop a multimodal transportation system that safely and efficiently serves all people with a focus on prosperity for all and environmental sustainability. To accomplish this, T2050 lays out five goals which serve as the foundation for transportation planning and project selection. Projects are assessed for which goal they are contributing on Table 10. Additionally, the TIP acts as the implementation arm of T2050.

T2050 has 27 performance measures: 13 federally mandated and 14 community established. The performance measures promote the overarching goals shown below.

Table 10: Projects addressing Transportation 2050 Goals

#	Project	People have a variety of transportation options that provide safe, accessible, convenient, healthy, and affordable travel that connect them to their destinations.	The transportation system supports prosperity for all by connecting people and places in an equitable, reliable, affordable, and efficient manner.	People's lives are saved, crashes are avoided, and people and goods are safe and secure	Protect and enhance the natural environment and support energy conservation.	Existing Infrastructure is prioritized through maintenance, operations, and strategic improvements to provide for the best return on public investments.

Performance Based Planning and Programming (PBPP) is accomplished by tracking performance measures, setting data-driven targets for each measure, and selecting projects to help meet the targets. The federal performance measures include:

- Safety
- Pavement & Bridge
- System Performance
- Transit

Each federal measure has target setting requirements, which provides the MPO guidance for how our region is doing to achieve the measures. The MPO developed a rolling schedule to update performance measure data based on data availability and when targets are to be reported to KDOT. The most up-to-date data and targets can be found at <https://lawrenceks.gov/mpo/t2050/pm>. Through the TIP development process, project sponsors were asked a series of questions to determine if the project would assist the MPO in reaching the region's desired targets. For this discussion it is important to note, there are thirty two (32) projects included in the fiscally constrained TIP.

Safety Targets

Safety targets are based on a five-year rolling average and annual targets are set. Table 11 displays the current safety targets for 2024. Safety data is obtained from KDOT each August and targets are determined for the next target year in October. Safety performance measures reflect data for all public roads including the number of fatalities, rate of fatalities per 100 million Vehicle Miles Traveled (VMT), number of serious injuries, rate of serious injuries per 100 million VMT, and number of non-motorized fatalities and serious injuries.

Table 11: L-DC MPO T2050 Safety Targets - 2024

Safety		2024 Target
9)	Number of fatalities	10.4
10)	Rate of fatalities per 100 million VMT	1.05
11)	Number of serious injuries	30
12)	Rate of fatalities per 100 million VMT	3.00
13)	Number of non-motorized fatalities & serious injuries	5.0

TIP Projects Working Towards Safety Goals

All but one of the non-transit projects have some component to address safety concerns. Table 12 displays the projects and describes the safety impact of the improvement. Further, common improvements which improve safety and corresponding projects are listed below.

Common Improvements That Impact Safety

Separated or dedicated facilities for pedestrians and bicyclists

According to a report from the Office of the New York City Mayor, when protected bike lanes are installed, injury crashes for all road users (motorists, pedestrians, and bicyclists) typically drop by 40% and by more than 50% in some locations.¹ (Example: Project #523 Church Street Shared Use Path)

Dedicated vehicle turning movements lanes

By creating two way left turn lanes, vehicles are separated from through traffic improving traffic flow and reduce the potential risk of rear end crashes. (Example: Project #607: Massachusetts Street - 14th to 23rd Street Multi-Modal Improvements)

¹ Howard Wolfson Memo on March 21, 2011 regarding Bike Lanes - http://www.nyc.gov/html/om/pdf/bike_lanes_memo.pdf

Access management

Access management improves safety by separating access points so turning and cross movements occur at fewer locations.

Roundabouts

According to AASHTO Highway Safety Manual, installing roundabouts reduce the types of crashes where people are seriously hurt or killed by 78-82% when compared to conventional stop-controlled and signalized intersections.¹ (Example: Project #104 Church Street Improvements)

Meeting design standards

The safety of the roadway can be improved by flattening roadside slopes and making geometric improvements to bring roadways up to design standards. (Example: Project #143: US-56 Reconstruction)

Table 12: Projects addressing L-DC MPO Safety Targets

Roadway, Intersection & Bridge Projects that Improve Safety		
#	Project	Safety Improvement
104	Church Street Community Connectivity & Multimodal Enhancements	Add center turn lane, roundabout, seperated ped/bike faility
106	Wakarusa Drive Extension	The project will remove arterial traffic from recreational areas, reduce fire and medical response time, and decrease vehicle use.
142	US-40/K-10 Interchange Improvement (Diverging Diamond Interchange)	Geometric improvements
143	US-56 Reconstruction: US-56/US-59 Junction east to 1600 Rd.	Widen shoulders and acceleration/deceleration lanes
148	Bob Billings - Kasold to Wakarusa Dr.	Separated ped/bike facility
151	Iowa St 23rd St to Irving Hill Rd Reconstruction	Surfacing improvements
152	K-33 reconstruction in Douglas County	More space for vehicles

Planning & Demonstration Projects that Improve Safety		
#	Project	Safety Improvement
700	Safe Streets and Roads for All - Lawrence, Baldwin City & Eudora	Development of a Vision Zero Safety Action Plan
701	12th Street Safety Action Plan - Eudora	Safety audit followed by demonstrations
Transit Projects that Improve Safety		
#	Project	Safety Improvement
402	Lawrence Transit Accessible Bus Stop Improvements	Improves safe, accessible bus stops
407	Lawrence Transit Downtown Station	Improved crossings near bus station and safer vehicle movements.
419	Lawrence Transit American Rescue Plan (ARP) Operating Assistance	Resources to meet transit safety requirements

During 2024, the MPO's Vision Zero Safety Plan is developing a High Injury Network (HIN) based on areas where fatal and serious injury crashes are occurring. The network identifies crash density, crash severity, and crash frequency. Additionally a HIN is being established for Vulnerable Road Users (VRUs). VRUs are Bicyclists, Pedestrians walking or using an assistive device, Scooter Riders, Skateboarders and other non motorized users.

Figure 6 shows the relationship of location between the HIN and the VRUs HIN in Lawrence, Eudora & Baldwin City. In Lawrence, 65% of fatal and serious injury crashes have occurred on just 6.5% of the roadways. In Eudora, 25% of Serious Injury Crashes and 32% of all Injury Crashes occurred on 1.5 miles of roadway. In Baldwin City, 50% of Serious Injury Crashes and 31% of all Injury Crashes have occurred on 1.1 miles of roadway. Crashes and 32% of all Injury Crashes occurred on 1.5 miles of roadway. In Baldwin City, 50% of Serious Injury Crashes and 31% of all Injury Crashes have occurred on 1.1 miles of roadway.

For the VRU HIN: In Lawrence, 30% of fatal and serious injury VRU crashes have occurred on just 1% of the roadways. In Eudora, 100% of Serious Injury VRU Crashes and 75% of all Injury VRU Crashes occurred on just 0.3 miles of roadway. In Baldwin City, 100% of Serious Injury VRU Crashes and 66% of all Injury VRU Crashes occurred on just 0.3 miles of roadway. Figure 6 displays the TIP Projects in relationship to the HIN and VRU HIN. Continued efforts should be made to implement Vision Zero to reduce fatal and serious injury crashes.

Produced: Lawrence-Douglas County MPO

Pavement & Bridge Targets

Pavement data categorizes pavement as Good and Poor. Good condition suggests no major investment is needed, while poor condition suggests major reconstruction investment is needed. Pavement condition is evaluated by measuring International Roughness Index (IRI), Present Serviceability Index (PSR), Cracking Percent, Rutting, and Faulting (uneven slabs of concrete). Bridge data is based on deck area. Condition is determined by the lowest rating of deck, superstructure, substructure, or culvert. National Highway System (NHS) bridge condition and Interstate and Non-Interstate NHS pavement condition data is provided by KDOT. The bridge targets are shown in Table 13, while the pavement targets are in Table 14.

Table 13: L-DC MPO T2050 NHS Bridges by Deck Area Targets - 2027

Bridge	2027 Target
14) Percentage of NHS Bridges by deck area classified as in GOOD condition	91.0%
14) Percentage of NHS Bridges by deck area classified as in POOR condition	0.0%

Table 14: L-DC MPO T2050 Interstate and Non-Interstate NHS Pavement Condition Targets - 2027

Pavement	2027 Target
18) Percentage of pavement of the Interstate System in GOOD condition	95%
18) Percentage of pavement of the Interstate System in POOR condition	0%
18) Percentage of pavement of the Non-Interstate NHS System in GOOD condition	65%
18) Percentage of pavement of the Non-Interstate NHS System in POOR condition	4%

TIP Projects Working Towards Pavement & Bridge Goals

Table 15 and Table 16 displays the projects which improve pavement conditions or include construction, repair or replacement of a bridge.

Table 15: Projects Improving Pavement Conditions

* Project on National Highway System (NHS)

Figure 7 displays TIP projects and NHS pavement condition. It assists in determining if projects will assist in improving “poor” pavement and achieving our pavement condition targets. The other projects which are not on the NHS will help achieve the local performance measures of improving non-NHS major roads (collector and above) pavement condition.

 Produced: Lawrence-Douglas County MPO

System Performance Targets

Reliability performance measures relate to person-miles traveled on the Interstate and Non-Interstate NHS, as well as truck travel time reliability on the Interstate. This equates to consistency or dependability of travel times. This data all comes from National Performance Management Research Data Set (NPMRDS) RITIS. The Interstate (I70) is maintained by the Kansas Turnpike Authority (KTA). Table 17 displays the system performance reliability targets.

Table 17: L-DC MPO T2050 Reliability Targets - 2022

System Performance		2027 Target
6)	Percent of the Person-Miles Traveled on the Interstate NHS That Are Reliable	99%
6)	Percent of the Person-Miles Traveled on the Non-Interstate NHS That Are Reliable	99%
8)	Truck Travel Time Reliability (TTTR) Index on the Interstate system	1.07

TIP Projects Working Towards System Performance Goals

There are no TIP projects that are part of the interstate system. Thus there are no specific projects working to achieve the person-miles traveled and truck travel time reliability targets pertaining to the interstate (T2050 PM 6 and 8). Furthermore, the data is provided as a set number by from NPMRDS RITIS and there is no way to determine which portion of the roadway is assigned a specific score. There are seven (7) projects on the Non-Interstate NHS; however, only two of them (Project #236/237 SLT/K-10 West Leg in Douglas County add capacity that would direct improve the person miles traveled reliability (LOTTR).

Transit Targets

Transit State of Good Repair measures include the Useful Life Benchmark (ULB) for revenue and non-revenue vehicles by auto type including full-sized buses, cutaway buses, vans, minivans, SUVs, and automobile. The percentage of assets with a condition rating below 3 on the FTA Transit Economic Requirements Model (TERM) scale is another federal performance measure, but there are no federally funded transit facilities in the MPO area. The MPO supports the State's target, but collected transit state of good repair information for local planning purposes only (Table 18).

Table 18: L-DC MPO T2050 Transit State of Good Repair Targets (Useful Life Benchmark – ULB)

Transit State of Good Repair		Vehicle Type	2027 Target
16)	Revenue Vehicles	Full-sized bus	25%
		Cutaway bus	25%
		Van	25%
		Minivan	25%
16)	Non-Revenue Vehicles (Equipment)	Minivan	75%
		SUV	75%
		Automobile	75%
17)	Percentage of assets with a condition rating below 3 on the FTA Transit Economic Requirements Model (TERM) scale	There are no federally funded transit facilities within the MPO.	

The Useful Life Benchmark (ULB) is the expected service years for a vehicle class. For example, a minivan is expected to last for at least 8 years. The MPO supports the State's targets. Targets set in the State TAM Plan are used for federal reporting. The L-DC MPO Target are for local planning purposes only. Table 19 displays the Lawrence Transit 2050 Safety Targets. Lawrence Transit accepted the State's targets for all of the measures except system reliability. Safety events are comprised of collisions, fires, hazardous material spills, act of nature (Act of God), evacuation, or [other safety occurrence not otherwise classified] occurring on transit right-of-way, in a transit revenue facility, or in a transit revenue vehicle and meeting established NTD thresholds.

Table 19: Lawrence Transit Safety Targets - 2024

Safety Performance Targets

Mode of Transit Service	Fatalities (total)	Fatalities (per 100 thousand VRM)	Injuries (total)	Injuries (per 100 thousand VRM)	Safety Events (total)	Safety Events (per 100 thousand VRM)	System Reliability (VRM/failures)
Fixed Route Bus Service	0	0	2	0.2	2	0.2	40,000
Demand Response Bus Service	0	0	2	0.2	2	0.2	40,000

TIP Projects Working Towards Transit Goals

According to information provided by project sponsors, seven (7) transit projects will help address the transit useful life benchmark (shown in Table 20). The projects include purchasing new transit vehicles and preventative maintenance on vehicles. By purchasing these new vehicles the overall percentage of vehicles at or exceeding the Useful Life Benchmark (ULB) will be reduced (Table 20). Further, three (3) projects will work towards meeting the Lawrence Transit specific System Reliability Transit Safety target shown in Table 19 These projects are shown in Table 21.

Table 20: Projects addressing L-DC MPO Transit Useful Life Benchmark Targets

#	Project	How the Project Improves Transit ULB
401	Independence Inc., FTA 5311 Operating & Capital	Vehicle preventative maintenance/Purchase New Vehicle
403	Lawrence Transit Capital and Operating Assistance	Purchase paratransit vehicles
404	Zero-Emissions Transition Plan	Planning to replace buses that have exceeded there useful life
412	Lawrence Transit Operating Funds	Vehicle preventative maintenance
420	Lawrence Transit Electric Buses Phase II	Replaces two diesel powered buses with electric buses
425	Lawrence Transit Electric Buses Phase III	Replace two diesel and two gasoline powered buses with four battery electric buses
427	Senior Resource Center, FTA 5310 Capital	Vehicle preventative maintenance/Purchase New Vehicle

Table 21: Projects addressing Lawrence Transit Safety Targets

Transit Projects that Improve Safety		
#	Project	Safety Improvement
402	Lawrence Transit Accessible Bus Stop Improvements	Improves safe, accessible bus stops
407	Lawrence Transit Downtown Station	Improved crossings near bus station and safer vehicle movements.
419	Lawrence Transit American Rescue Plan (ARP) Operating Assistance	Resources to meet transit safety requirements

Progress towards Targets

In summary, based on information available, the MPO believes we are on track to meet the goals set in Transportation 2050. Figure 8 shows the Lawrence Transit Routes and population density estimates.

Evaluating Performance over Time

Federal performance measures will be tracked annually in the performance measure report – T2050 Appendix F: System Performance Report, which will be updated on a rolling basis based on when data is available. View the most current data at the performance measure website:

<https://lawrenceks.gov/mpo/t2050/pm>. Performance measures will be evaluated as part of the annual report process and may be altered as the MPO Policy Board deems necessary (based on the Public Participation Plan (PPP)). Evaluating performance measures will be updated when a full TIP update is completed or if regulations have changed requiring an update.

Figure 8: Lawrence Transit 2024 Routes and 2020 Population Estimate Densities

PLANNING & ENGINEERING FACTORS FOR LOCAL PROJECT CONSIDERATION

APPENDIX A

Planning Factors

- Is the project consistent with the goals and objectives found in the Metropolitan Transportation Plan (MTP)?
- Is the project listed as a recommended transportation system improvement in the MTP?
- Is the project regionally significant as defined by federal regulations and the latest Regionally Significant Policy approved by the MPO?
- Is the project consistent with the latest MPO/FHWA approved Functional Classification Map?
- Is the project consistent with the latest locally approved comprehensive plan (including the land use plan, area plans, Safe Routes to School, and other comprehensive plan elements/chapters) covering the project location?
- Does the project include provisions for transit, bicycle, and pedestrian movements (including students and ADA accessibility) as needed to provide a regional multimodal transportation system?
- Has the project sponsor considered Title VI impacts in the planning for this project, and if the project is in a minority and/or low-income area has the project sponsor considered and addressed the Title VI issues related to the project?
- Has the project sponsor received public comments about this project and if received considered those public comments in the planning and design of the project?
- Is the project eligible for the type of federal and/or state funding being proposed for it, and is there adequate funding available for the project in the year it is proposed?

Engineering Factors

- Does the Project address a facility that has (existing or projected) a high volume to capacity ratio indicating it or will experience significant congestion and lower levels of service?
- Does the project location have a traffic accident history marked by a higher than expected accident rate which, along with other accident attributes, indicates that an engineering change could reduce the number and/or severity of crashes?
- Does the project location have pavement conditions noting a deteriorated state showing that the facility is in need of improvements to maintain its function and/or that those improvements can be made economically now before more costly reconstruction is needed?
- Does the project site include geometric design that is inadequate by current standards and does the project sponsor have documentation that this design is hampering the facility's ability to handle the traffic loads and/or vehicle sizes using the facility in a safe and efficient manner, and does the project sponsor plan to address those geometric deficiencies as part of this project?
- Does the project site or facility have structural deficiencies indicating that the facility is near the end of its projected lifespan and that it will need frequent maintenance to function adequately, and does the project sponsor plan to address these structural deficiencies as part of this project?
- Have safety concerns involving motorists, bicyclists, pedestrians and/or transit users and transit operations been identified at the project location and does the project sponsor plan to address those concerns as part of this project?
- Has the project location met minimum engineering standards set by the project sponsor that indicate the facility is in need of improvement, rehabilitation or replacement?

*This list is not exhaustive. It is used at the discretion of local governments and project sponsors and may be changed in the future.

B

DEFINITIONS OF MAJOR PROJECTS & SIGNIFICANT DELAY

APPENDIX B

Roadways (including intersections and bridges)

The major roadway projects include projects located on a roadway classified by the MPO as a Major Collector or higher, with construction costs of at least \$2.0 million and that have at least one of the following attributes:

- Designed to increase roadway capacity and/or decrease traffic congestion
- Designed to improve safety
- Designed to replace aging infrastructure and bring it up to current standards
- Results in significant delay and/or detours during construction

Major projects do not include the following types of projects that are considered to be routine maintenance projects: mill & overlay, micro-abrasion, micro-surfacing, crack sealing, concrete rehabilitation, curb repairs, sweeping, mowing, spot repairs, and interim measures on detour routes.

Transit Facilities and Services

The major transit projects include projects that need to be listed in the TIP because they use federal funding and/or are regionally significant, have a total cost of at least \$1.0 million, and meet at least one of the following criteria:

- Acquisition of three or more new transit vehicles
- Addition or expansion operations and/or maintenance buildings
- Initiation of new transit service or expansion of transit services into territory not previously served

Major transit projects do not include the following types of projects that are considered to be routine: preventive maintenance on transit vehicles; purchase of spare parts, shop supplies and fuel; annually received formula based operating assistance; purchase of bus stop signs, shelters and related items; scheduled purchases of one or two transit vehicles; staff training and recruitment; and other routine operational activities.

Bikeway and Pedestrian Facilities

The major bikeway and pedestrian projects includes projects that need to be listed in the TIP because of federal funding and/or regional significance, and meet at least one of the following criteria:

- Total project cost of at least \$ 500,000
- Construction of bikeway or pedestrian facility (or extension of existing facility) into a location where a bicycle/pedestrian facility did not exist before

Major bikeway/pedestrian projects do not include the following types of projects that are considered to be routine maintenance projects: patching, crack sealing, curb repairs, sweeping, mowing, spot repairs, landscaping maintenance, sign replacements, and other routine operational activities.

Significant Delay

The term significant delay will be defined as two years or more from the year first listed for the project in the previous TIP.

C | PROGRESS ON PREVIOUS TIP PROJECTS

APPENDIX C

The following projects from the previous 2023- 2026 TIP were implemented between the start of FFY 2025 and the approval date for this new 2025-2028 TIP.

Table C-1: Completed Projects

#	Project Type	Project Name	Sponsor	Location	Description	Project Year
117	Road	Naismith Drive Reconstruction: 19th St. to 23rd St.	Lawrence	19th & Naismith to 23rd & Naismith	Reconstruction, Pedestrian/Bicycle	2023-2024
144	ITS	South Iowa St. Traffic Signal Improvement Project	Lawrence	31st St. (Louisiana St. to Neider Road) and Iowa St./US59 (23rd St. to County Route 458)	Signal	2022
146	Road	11th St. - Indiana to Ohio; Louisiana - 11th to 12th Reconstruction	Lawrence	11th St. - Indiana St. to Ohio St. & Louisiana St. - 11th St. to 12th St.	Reconstruction	2022-2024
147	Road	K-33: Wellsville to U.S. 56 (N. 200th Road) junction	KDOT	50 feet north of 6th Street in Wellsville north to the K-33/U.S. 56 (N. 200th Road) junction.	Reconstruction	2022
149	Road	Wakarusa Dr. Reconstruction - Harvard Rd to 6th Street	Lawrence	Wakarusa Dr. Reconstruction - Harvard Rd to 6th Street	Reconstruction	2024-2025
150	Road	N 2nd/3rd St Tunnel to N City Limit	Lawrence	N 2nd St north from railroad overpass to N 3rd St at north City limits	Pavement Milling, Overlay	2024-2028
153	Safety	Replace Traffic Signal on US-40 in Douglas County	KDOT	US40: Traffic signal located at the intersection of US-40 (K-10) and US-59 (Iowa Street) in Lawrence	Signal	2024
214	Road	Wakarusa Dr. Reconstruction: Research Pkwy to 23rd St	Lawrence	Wakarusa: Research Pkwy to 23rd St	Reconstruction	2022-2023
219	Road	Rte 458/1055 Improvements: E 1500 thru E 1600	Douglas County	E1500 to E1600 & N940 to N1000	Grading, Surfacing	2020-2021
230	Road	Queens Road: 6th to North City Limits	Lawrence	6th St to North City Limits	Reconstruction	2015-2022
234	Road	23rd Street Reconstruction: Haskell to East City Limits	Lawrence	Haskell Ave to East City Limits	Reconstruction	2020-2022

LATEST FEDERAL FISCAL YEAR - LIST OF OBLIGATED PROJECTS

APPENDIX D

The purpose of this listing is to illustrate the progress of federal aid transportation projects in the region as they move through the years in the TIP projects table and onto the recently obligated projects list. Projects are listed based on the year the federal funds were obligated, not necessarily the year the construction of the project began. The federal amount represents the federal funds spent on the project.

The table below describes projects listed in the TIP that were obligated in the previous Federal Fiscal Year (FFY). A listing of projects with federal aid obligated in the previous FFY are presented to the MPO each year for review either as part of a TIP approval or amendment or as a separate memo.

The listing will be available on the MPO website and is sent to the Kansas Department of Transportation who will then distribute the listing to the FHWA and the FTA for informational purposes.

Table D-1: Obligated Projects From FFY2025

Lawrence-Douglas County MPO Area - List of Project for Which Federal Funds Were Obligated in FFY 2025									
Transit Projects									
MPO #	KDOT #	Project Name/Location	Project Description	Cost in \$1,000's					Project Status
				Federal Funding Source	Federal Funds Requested in TIP	Federal Funds Obligated in FFY 2025	Federal Funds Obligated To Date (Cumulative)	Federal Funds Remaining/Unliquidated Obligation	
402	PT-0904-23	Equitable and Accessible Bus Stop Improvements	Improve 25 bus stops in C zones with amenities and ADA accessibility	5310	\$122	\$0	\$0	\$122	Yes Active
404	PT-0902-24	Transit Zero Emission Transition Plan	Plan will allow Lawrence Transit to plan for larger scale deployments of charging equipment at the joint maintenance facility. Currently, there is space and plans for 12 chargers along the north side of the bus lot.	5304	\$120	\$89	\$120	\$0	No Active
405	PT-3905-23	Car-Friendly Flip-Seat Retrofit	Car-Friendly flip-seat retrofits would advance equity goals by making the bus more practical to use for the purposes of grocery shopping with a cart and traveling with children who require strollers.	5339	\$32	\$0	\$0	\$32	No Active
407	PT-3905-23	Downtown Station	Continue transit operations and passenger amenity improvements to Downtown Station. Will include five southeast bus parking bay, an outdoor passenger waiting area with seating and a canopy, bicycle parking and bike lockers, real-time signage.	5339	\$1,624	\$0	\$0	\$1,624	Yes Active
408	PT-3905-23	Bus Technology	Automated announcements will provide audio stop announcements on fixed route buses for every stop. Near Destination Sign Retrofit will allow passengers to more easily locate their bus at transfer locations when they approach from the rear.	5339	\$359	\$0	\$0	\$359	No Active
412		Lawrence Transit Operating Funds	Operating, Preventative Maintenance, and Program Administration activities	5307	\$10,641	\$3,757	\$3,757	\$6,884	No Active
419		American Rescue Plan (ARP) Operating Assistance	American Rescue Plan Act of 2021 (ARP) funds were apportioned to Lawrence Transit, eligible for similar use as 5307 funds in response to lost revenue and challenges due to the COVID-19.	5307	\$4,512	\$452	\$4,512	\$0	No Active
420		Lawrence Transit Electric Buses Phase 2	Procurement of two battery electric buses to replace two diesel-powered buses, associated charging infrastructure, and project management.	5339	\$1,815	\$72	\$1,758	\$57	No Active
424		AIC - Bus Technology, Accessibility, and Branding Enhancements	Project includes real-time bus arrival information, automated vehicle announcements, exterior rear destination signs on buses, interior digital signs on buses, flip-seat retrofits, and bus decals & wraps.	5339	\$676	\$236	\$466	\$210	Yes Active
425		Electric Buses Phase 3	Procurement of four battery electric buses to replace two diesel-powered buses, two gasoline-powered buses, associated charging infrastructure, and project management.	5339	\$3,279	\$725	\$916	\$2,363	No Active
416		Electric Buses Phase 1	Phase 1 of electric bus	5339	\$3,756	\$0	\$3,690	\$66	No Active
417		CARES Act	Operating activities	5307	\$7,125	\$20	\$7,122	\$3	No Active
401		Independence, Inc.	Capital - RMV	5311	\$94	\$57	\$71	\$14	No Active
427		Senior Resource Center for Douglas County, Inc.	Capital - RMV	5310	\$66	\$59	\$74	\$15	No Active
Non-Transit Projects									
MPO #	KDOT #	Project Name/Location	Project Description	Cost in \$1,000's					Project Status
				Federal Funding Source	Federal Funds Requested in TIP	Federal Funds Obligated in FFY 2025	Federal Funds Obligated To Date	Federal Funds Remaining	
142	KA-2841-02	US-40/K-10 Interchange Improvement (DDI) Douglas County	Construct a Diverging Diamond Interchange (DDI) includes bridge #088- for the addition of sidewalk with barriers for pedestrian protection down center of bridge.	NHPP	\$13,739	\$0	\$0	\$13,739	No Active
516	TE-0499-01	Lawrence Loop Shared Use Path: Michigan St. to Sandra Shaw Park	Construct sidewalks and improve a crossing	TA	\$564	\$0	\$1,070	(\$506)	Yes Inactive
519		Lawrence: Safe Routes to School - Ousdahl Road	Construct approx. 5,500 linear feet of sidewalk and compliant sidewalk ramps along identified Safe Routes on Ousdahl Rd and W 25th St. Install pedestrian-activated crossing improvements at 22nd St. if warranted.	TA	\$738	\$1,049	\$1,049	(\$311)	Yes Complete
525	TE-0509-01	Eudora: Safe Routes to school sidewalk improvements	Construct approx. 4,625 linear feet of sidewalk and compliant sidewalk ramps and markings along identified Safe Routes on 10th, 12th, 14th, and Elm Streets.	TA	\$706	\$0	\$0	\$706	Yes Active

TIP PROJECT LISTINGS

APPENDIX G

Example Listing

Decoding the TIP

TIP #: Assigned based on project type by MPO:

100 – Roadway/Intersection
200 – Bridges
300 – ITS
400 – Transit/Paratransit

500 – Enhancement (Bike/Ped)
600 – Safety
700 – Other – studies

Phase:

CAPITAL – Transit Capital
CONST – Construction - (includes Construction Engineering)
OPERATING – Transit Operating

PE – Preliminary Engineering
ROW – Right of Way
UTIL – Utilities

Project Type: Classified into categories:

- Bridge
- Enhancement
- Interchange
- Intersection
- ITS
- Road

- Safe Routes To Schools (SRTS)
- Safety
- Traffic Signal
- Transit/Paratransit

Federal Fiscal Year (FFY): October 1 - September 30

Work Type: Classified into categories:

- Access Management
- Bridge Rehabilitation
- Bridge Replacement
- Capital
- Geometric Improvement
- Grading
- Mill/Overlay
- Operating
- Other
- Pedestrian & Bicycle

- Planning
- Reconstruction
- Redeck Bridge
- Safety
- Seeding
- Signage
- Signal
- Special Work
- Surfacing
- Vehicle Replacement

Fund Source:

- Community Development Block Grant (CDBG)
- National Highway Performance Program (NHPP)
- Surface Transportation Program (STP)
- Highway Safety Improvement Program (HSIP)
- Railway-Highway Crossings (set-aside from HSIP)
- Transportation Alternatives (TA) – includes Safe Routes To School funding
- National Infrastructure Investment (NII) – includes RAISE, BUILD, and TIGER grants

- Carbon Reduction Program (CRP)
- Urban Area Formula Grants (5307)
- Rural Area Formula Grants (5311)
- Enhanced Mobility of Seniors and Individuals with Disabilities (5310)
- Bus and Bus Facilities (5339) Program
- State of Kansas Funding (State)
- Local Government Funding (Local) - County and City funds from local property and sales taxes

Lawrence-Douglas County MPO
FFY 2025 - 2028 Transportation Improvement Program Projects (Costs in 1,000s)

(Includes the Program of Projects for the Lawrence Transit System)

Project Sponsor: City of Eudora

TIP #: 104 **KDOT #**

Length (mi): 1.40

Project Type: Road

Date Added
10/2023

Description:
Reconstruct 1.4 miles of Church St and conversion of 2 lane segment to 3 lane with center turn lane. Realignment of the 20th St. intersection, new roundabouts at 20th and 23rd St. intersections. Shared use path across K-10 and both sides of Church St.

Project Name: Church Street Community Connectivity & Multimodal Enhancements

Location: Eudora - Church Street from 15th to 28th Street

Work Type: Road, Geometric Improvement, Pedestrian/Bicycle, Safety

Revision History:

Comments:

Lawrence-Douglas County MPO
FFY 2025 - 2028 Transportation Improvement Program Projects (Costs in 1,000s)

(Includes the Program of Projects for the Lawrence Transit System)

Project Sponsor: City of Eudora
TIP #: 154 **KDOT #** U-2584-01

Length (mi): 1.55

Project Type: Road

Date Added **Last Revised**
08/2025 08/2025

Description:
Renewal of the City's arterial streets (Main, 10th, & Church). Estimated 31,170 SY of HMA mill and 2" overlay plus full depth patching. There is 3,650 LF of new curb & gutter, 15 new ADA ramps, and new bike & pedestrian street markings and signage.

Project Name: Main and 10th Street Improvements
Location: Eudora, Main Street (from 6th to 10th St.), 10th Street (Winchester Rd. to East 500 block), Church Street (10th to 13th)
Work Type: Mill/Overlay

Revision History: FFY25 A2

Comments:
Main, 10th, and Church Streets see heavy use from farm-to-market traffic and commercial trucks, accelerating roadway wear. The project also includes new ADA ramps and bike/pedestrian signage to support non-motorized users. KDOT spring 2025 cost share.
